Molecular and Cellular Biochemistry:

An International Journal for Chemical Biology in Health and Disease

CONTENTS VOLUME 224, Nos. 1 & 2, August 2001

X. Huang, D. Zhai and Y. Huang: Dependence of permeability transition pore opening and cytochrome C release from mitochondria on mitochondria energetic status 1–7

A. Agrawal, D. Chandra and R.K. Kale: Radiation induced oxidative stress: II Studies in liver as a distant organ of tumor bearing mice 9–17

K. Masutomo, N. Makino, M.S.M.S. Fushiki: Effects of losartan on the collagen degradative enzymes in hypertrophic and congestive types of cardiomyopathic hamsters 19–27

R. Rahimian, E. Masih-Khan, M. Lo, C. van Breeman, B.M. McManus and G.P. Dubé: Hepatic over-expression of peroxisome proliferator activated receptor γ2 in the ob/ob mouse model of non-insulin dependent diabetes mellitus 29–37

A. Prasad, S. Kaur, N. Malla, N.K. Ganguly and R.C. Mahajan: Ca^{2+} signaling in the transformation of promastigotes to axenic amastigotes of *Leishmania donovani* 39–44

J. Raju, D. Gupta, A.R. Rao, P.K. Yadava and N.Z. Baquer: *Trigonella foenum graecum* (fenugreek) seed powder improves glucose homeostasis in alloxan diabetic rat tissues by reversing the altered glycolytic, gluconeogenic and lipogenic enzymes 45–51

C.M. Misquitta, V.R. Iyer, E.S. Werstiuk and A.K. Grover: The role of 3′-untranslated region (3′-UTR) mediated mRNA stability in cardiovascular pathophysiology 53–67

H.P. Luther, S. Podlowski, W. Schulze, R. Morwinski, I. Buchwalow, G. Baumann and G. Wallukat: Expression of α_1-adrenergic receptor subtypes in heart cell culture 69–79

R. Tsou and F.F. Isik: Integrin activation is required for VEGF and FGF receptor protein presence on human microvascular endothelial cells 81–89

R. Tupling, H. Green and S. Tupling: Partial ischemia reduces the efficiency of sarcoplasmic reticulum Ca^{2+} transport in rat EDL 91–102

L. Demaison, D. Moreau, C. Vergely-Vandriesse, S. Grégoire, M. Degois and L. Rochette: Effects of dietary polyunsaturated fatty acids and hepatic steatosis on the functioning of isolated working rat heart under normoxic conditions and during post-ischemic reperfusion 103–116

H. Takahashi and M. Yamaguchi: Activatory effect of regucalcin on GTPase activity in rat liver plasma membranes 117–122

N. Aiyar, J. Disa, M. Pullen and P. Nambi: Receptor activity modifying proteins interaction with human and porcine calcitonin receptor-like receptor (CRLR) in HEK-293 cells 123–133

M. Sumitra, P. Manikandan, D.A. Kumar, N. Arutselvan, K. Balakrishna, B.M. Manohar and R. Puvanakrishnan: Experimental myocardial necrosis in rats: Role of arjunolic acid on platelet aggregation, coagulation and antioxidant status 135–142

K. Srivastava and D. Dash: Altered membrane fluidity and signal transduction in the platelets from patients of thrombotic stroke 143–149

O.S. Opgaard, M. Adner, T.H.F. Peters, C.-B. Xu, L. Stabvenow, S. Gulbenkian, D. Erlinge, L. Edvinsson and H.S. Sharma: Endocardial expression and functional characterization of endothelin-1 151–158

Review articles

R.R. Chirumamilla, R. Muralidhar, R. Marchant and P. Nigam: Improving the quality of industrially important enzymes by directed evolution 159–168

R.J. Snow and R.M. Murphy: Creatine and the creatine transporter: A review 169–181

Short communication

J.-P. Gagné, R.G. Shah and G.G. Poirier: Analysis of ADP-ribose polymer sizes in intact cells 183–185

Index to Volume 224 187–189

Instructions to Authors 191–195
